

The High Capacity **Infiltrator**[®] Chamber H-20

INFILTRATOR[®]
SYSTEMS INC
Environmental Onsite Wastewater Solutions[™]

The High Capacity Infiltrator Chamber H-20 offers maximum internal volume per linear foot for extra temporary storage capacity. The 10" louvered sidewalls facilitate infiltration and evapotranspiration, while reducing fines in the system. The High Capacity H-20 chamber gets an H-20 load rating with 18" of compacted cover when installed per installation requirements.

The High Capacity Infiltrator Chamber H-20 System Offers These Unique Benefits:

- More temporary storage capacity
- Maximum internal volume per linear foot
- Easy assembly and installation with as few as two people, a back-hoe and a pickup truck
- Inspection port option for easy access to leachfield with no site disruption
- **OVERALL REDUCED COST**

Tested and Proven with More than One Million Installed

- Infiltrator is the number-one septic leachfield chamber system in the onsite industry.
- More than one million systems installed, with over 27 million units in-ground in all 50 states and 24 countries.
- Infiltrator's established history of performance and reliability began in 1987.
- Field surveys show that Infiltrator chambers systems are more resistant to hydraulic failure than stone and pipe systems.
- Infiltrator is ISO 9001:2000 certified and is IAPMO and UPC approved.
